

HIRE ■

■ INSTRUMENTATION

Medilabor SC offers some instruments for rent for short or long periods in order to satisfy momentary increases in work or eventual repair times which are not always rapid.

SOME OF THE AVAILABLE INSTRUMENTS:

- Instrumentation for sampling atmospheric emissions.
- Instrumentation for indoor sampling.
- Instrumentation for environmental sampling.
- Instrumentation for industrial hygiene measurements.
- Instrumentation for biogas analysis.
- Instrumentation for workplace safety measurements.

CONVENIENCE

Renting is a form that allows us to satisfy every request for its monitoring and, in case of stop of your instrument, we can provide equivalent solutions in a short time.

In case of short or long monitoring campaign we can provide a solution that allows you to complete the measurement campaign.

Renting an instrument is the most cost-effective solution that allows you to get the same level of service and support as when the instrument is purchased without having to worry about maintenance, calibration or ownership costs.

Medilabor SC is a laboratory of analysis which offers professional consulting services, specific training activities and services related to the calibration of scientific and technical instruments.

Medilabor-SC & MEDILABOR GROUP carry out activities that are guaranteed throughout the whole territory.

- Certificate of accreditation of operational headquarters of Professional Training Piedmont Region N°1177.
- Ministerial qualification for asbestos analysis.
- Analysis laboratory recommended by AIC.
- EN ISO 9001 Certificate
- EN ISO 14001 Certificate
- ACCREDIA Accreditation Certificate N° 1270.
- Regional authorization HACCP analysis.
- Authorization for feed analysis.
- Registered, in the National List of laboratories recognized by the Italian Celiac Association (A.i.C.).
- Registered in the Regional List of Laboratories performing analytical tests related to self-control for Food Industries N° 056.
- Registered in the National List - Ministry of Health of the Laboratories performing analytical tests on medicated feed.
- Accreditation by the Japanese Ministry of Health in the list of foreign laboratories for the inspection service of imported foods.

- Consulting Services
- Training and education
- Calibration services
- Instruments Rental

SAMPLING ■

■ LABORATORY ANALYSIS

AIR SECTOR

- Authorization controls of emissions into the atmosphere.
- Environmental impact.
- Environmental controls - PTS: PM 2.5: PM 10.
- Controls of working environments - Chemical or Microbiological Risk. Microclimate. Video inspections.
- Prevention and control of legionellosis.

FOOD HYGIENE SECTOR

- Analysis of food, surfaces, water - environmental hygiene controls.
- Nutritional analysis of food.
- Chemical, microbiological, product, allergy, organoleptic analysis - challenge and pach test.
- HACCP: self-controlled food hygiene - surface sanitization.

WASTE SECTOR

- Waste classification.
- Test of cession according to the parameters imposed by the legislation in force.
- Analysis for material recovery - waste - land - sludge.
- Analysis of biomasses.
- Drinking water, waste water, technologies, piezometers.

OTHER SECTORS

- Work environment surveys, ATEX, radioactivity, optical radiation (ROA) radon
- Risks of exposure to physical agents: vibration, noise.
- Electromagnetic fields (EMF), flammability and explosivity tests, video inspections.
- Accredited training organization in Piedmont Region n. D67348
- Water Safety Plan: risk assessment and management in the water supply chain for human consumption

SAMPLING ■

■ LABORATORY ANALYSIS

SOILS, FEEDS, FERTILIZERS:

- Chemical, microbiological, geomechanical analysis.
- Quality control / production.

COMBUSTIBLE PAINTS AND SLAGS:

- Chemical and microbiological analyses.

METALLURGY:

- Chemical, mechanical, ATEX analyses.

ALCOHOL TOXICOLOGY:

- Alcoltest, Narcotest (droghe).

MATERIALS AND STRUCTURAL ELEMENTS:

- Concrete, steels, load tests.

RESEARCH AND DEVELOPMENT:

- Chemical and mechanical analysis of unknown materials.
- Impurities research, contaminants research.

SERVICES RELATED TO VERIFICATIONS AND CALIBRATIONS:

- Consultancy regarding calibrations (thermometers, scales, anemometers, manometers, hygrometers) performed at our certified and accredited.

SAMPLING AND WITHDRAWAL OF PERISHABLE AND NON-PERISHABLE SAMPLES THROUGHOUT THE TERRITORY

TRAINING CONSULTING ■

■ AND SERVICES

TRAINING:

- Food hygiene. Self-control HACCP. Local sanitation.
- Food Labeling. Celiac disease, Allergens, Legionella Pneumophyla in the workplace and in public places. Safety, Antifire, First aid, Managers, Security personnel.
- Workers, Employer, Truck forklift.

CONSULTING:

- Drafting / Revision of manuals of self-control (HACCP).
- Veterinary advice, environmental, nutrition in the field of hygiene.
- Consulting at ARPA, IZS or ISS. Assistance and Revisions.
- Consulting for ISO, BRC, IFS certifications.
- Consulting and CE Marking.
- Consulting for waste disposal.
- Quality assurance. Company audits - also specialized for large retailers. Quality review.

SAFETY:

- Risk assessment according to the single text of security - chemical, vibration, noise.
- Environmental services, environmental recoveries.
- Fire prevention certificates - C.P.I.

EXTENDED SERVICES:

- Periodic verifications of earthing systems with a body recognized by the Ministry.
- Legal assistance.
- Assumption of tasks as quality managers. IMPORT / EXPORT as prescribed by the Ministry of Health.
- Assumption of tasks as external R.S.P.P.
